

Special Orders

I can design soaps for party favors or special occasions. I have many molds in different shapes or can make loaves with other soaps embedded. One popular style are my word soaps.

Fun word soap with embedded heart (chocolate scent)

These have short words (up to 5 letters or numbers) and sometimes another shape too all made out of soap!

Guest sized star soaps

Green Tea scented soaps

Starry night soap with embedded gold soap stars

Lemon & Grapefruit Glycerin Soaps & Bath salts

Soaps

Hi, I'm Keith Bertrand, owner of Good Clean Fun Soaps & Crafts. I have always had allergies especially, to scents. I generally cannot go into candle stores or go near perfume counters. When I was given a soap-making kit as a present, I found I loved making soap! I choose, for the most part, to use natural essential oils, which rarely bother allergies. Soon I was making more soap than I could use and starting giving it out to friends. Hence my nickname and e-mail address: Soap pimp.

Glycerin Soaps

I love the play of light in the glycerin soaps. It can be molded into many shapes and because it is Ph neutral takes scents well. I enjoy making layered soap including the gem soaps pictured above.

Lilac and Grapefruit Gem Glycerin soaps

Cold Process soaps, including spice(brown), lavender (purple marbled), and castle (yellow)

Cold Process Soaps

Cold process soaps are made with lye and a mix of fats/oils. When done well there is no lye left just rich soap. This process allows total control of ingredients. This also makes a nice smooth marbled bar.

Hot Process soap Castile, olive oil based , with Calendula petals

Hot Process/ Crock Pot

This soap is done quickly; cold process must wait weeks to finish becoming soap. Also, this is less harsh on scents than the cold process.

Other Crafts

I also explore other crafts. Since I had a wide ranging mix of oils and butters I thought I would try making

Various lip balms

lip balms. After some trial and error I found a formula that works well. As with my soap I always make some without additional flavors or colors for those more sensitive than I. I also make bath salts and fizzes.

Sales

I generally sell my soap by word of mouth or craft fairs. I also teach glycerin or Melt and Pour soap making to groups either at my house or yours. Would you be interested in some soaps or lip balms? Would you like to go to or host a soap making party? Send me an e-mail, a letter, or give me a call and we will talk about your needs and desires.
